

suryan monolith
a symbol of power and elegance

Monolith noun \ˈmā-nə-ˈlith

- 1: a single great stone often in the form of an obelisk or column*
- 2: a massive structure*
- 3: an organized whole that acts as a single unified powerful or influential force*

(Merriam-Webster's dictionary)

MONOLITHS IN HISTORY

The weight of a building conveyed through its impressive stature has assured it a place as a symbol of power through the ages.

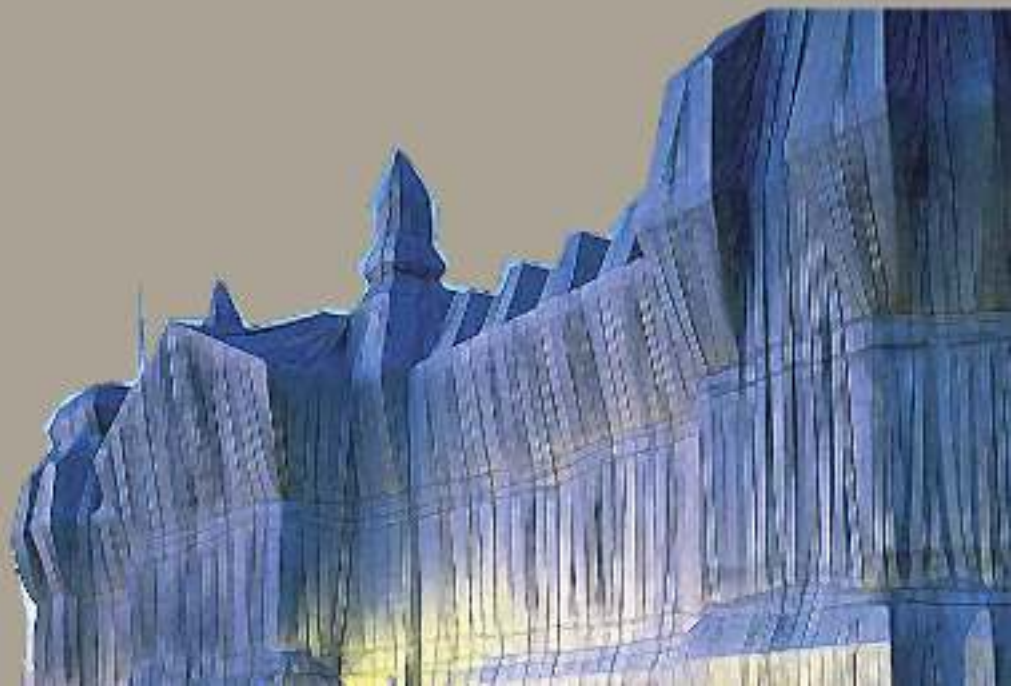

The Suryan Monolith, with its imposing concrete façade exceeding 95m in length, enclosing the headquarters of Ahmedabad's elite corporations, now joins these ranks

MONOLITHS IN ART

The seamless consistent nature of a well modeled piece of art makes it a potent representation of elegance.

The Suryan Monolith, with its cohesive concrete casing cradled between two layers of greenery, falls into this class.

MONOLITH IN CONTROL

Located on S.G highway, the rapidly developing business centre of the city, the Monoliths overpower a large section of the highway leaving an enduring mark on the city.

MONOLITH IN FOCUS

Revealing Ahmedabad's new one of a kind retail and corporate hub, containing shops and offices wrapped and revealed in a new skin.

MONOLITH LIT UP

In the night, the seemingly impenetrable mass of the monolith transforms into delicate container of light, revealing its secret
