Abstract

© 2004 Blackwell Publishing Ltd *Journal of Internal Medicine* 255: 105–112

10. *How many times did you use the following services in the last 12 months?*

Reid, R. 1994. *Reproductive Ecology of the American Robin*. Oxford, U.K.: Oxford University Press.

PHILIP M. JACOBI, Editor

1. The first step in the process of creating a new product is to identify a market need. This is often done through market research, which can involve surveys, focus groups, and other methods of gathering information from potential customers.

...and the ...

Many authors have observed that the rate of growth of a plant is related to the amount of light it receives. For example, a plant that receives a lot of light will grow faster than a plant that receives a little light. This is because light is the source of energy for photosynthesis, which is the process by which plants make their food. Without light, a plant cannot photosynthesize and will eventually die.
